Fatema-Tuj-Zahura Moumita

Web Developer | MERN Stack

Dhaka,,Bangladesh | moumitaaabd@gmail.com | +8801630875115(WhatsApp) | LinkedIn | Portfolio | GitHub

CAREER OBJECTIVE

MERN Stack developer passionate about building accessible, high-performing websites; in my projects, I've used React, JavaScript, Tailwind, Node.js/Express, MongoDB, and Firebase to deliver modern & responsive web applications,secure authentication, REST APIs, and deployments. Enthusiast about Fullstack development and innovative software solutions. Seeking a web developer role to make meaningful impact while advancing my skills.

SKILLS

Frontend: JavaScript, React, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST API
Database: MongoDB, Firebase
Tools: Git, GitHub, VS Code, JWT
Programming Language: C, C++

PROJECTS

1. Blood Center – Blood Donation Platform (Full-Stack MERN Project) Live Link| Client | Server A responsive platform connecting donors and recipients with role-based dashboards, donor search, and Stripe-powered funding.

Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase Auth, JWT, Stripe ● Auth and role-based access (Admin/Volunteer/Donor) via Firebase Auth + JWT.

- Responsive React/Tailwind UI with donor search and request management.
- Express/MongoDB APIs with server-side pagination; integrated Stripe funding.

2. ShopnoBhromon – Travel Booking Platform (Full-Stack MERN Project) Live Link| Client | Server A full-stack travel booking platform for browsing and booking tour packages and resorts with secure online payments.

Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase Auth, Stripe ● Advanced package and resort filtering, sorting, and detailed booking pages.

- Firebase authentication with role-based admin dashboard, full CRUD for packages, resorts, and bookings, and Stripe-powered payment.

3. E-Study – Assignment Management Platform (Full-Stack MERN Project) Live Link| Client | Server Assignment management app for students and evaluators—create, submit, and grade assignments with protected routes, filtering, and real-time validation.

Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase Auth, JWT

- Firebase Auth (Email/Google) + JWT for protected routes; creator-only edit/delete; evaluator review/marking.
- Responsive React/Tailwind UI with difficulty filtering, details view, and submission modal; real-time validation and toast alerts.
- Express/MongoDB APIs for assignments, submissions, and grading with status updates and feedback.

EDUCATION

B.Sc. in Computer Science & Engineering 2023-Present
National University

EXTRA-CURRICULAR ACTIVITIES

- Technical Coordinator, Programming Club — Tejgaon College
- Finalist — Luna Shamsuddoha All Girls' Programming Contest, 2024 Certificate
- Participant — ICPC Asia Dhaka Regional Site Online Preliminary Contest Certificate

LANGUAGES

- Bangla(Native)
- English(Fluent)
